## INSTRUCTIONS FOR COMPLETING THE PERSONAL RESIDENCE AND WORK CALENDAR

The calendar is intended to help you remember where you have lived and worked through your lifetime. There are four columns in the calendar. Instructions for filling out each column are given below. An example is provided on the next two pages.

COLUMN	INSTRUCTIONS
YEAR	The column for year is filled in already, starting with the year in which you were born. If your year of birth is wrong, please note your correct year of birth next to "Born."
AGE	The column for age is also filled in already.
HOME ADDRESS	First, write your home address corresponding to the year in which you were born. Draw an arrow downward, until you reach the year in which your home address changed. Write in your new address, and repeat this process until you have reached the current year. Provide as much detail as you can (e.g., if you remember the city and state but not the number and street, just write down the city and state). Any information you provide will be helpful. Do not include summer residences or any home that you lived in for less than 6 months.
JOB AND COMPANY	Write down your first job (after the age of 16) and opposite the year you started there. Draw an arrow downward, until you reach the year in which your job changed. Write in your next job, and repeat this process until you reached your current job. If your job titles and duties changed within the same company or employer, count this as a new job. If you did not work for more than 6 months, please note this on the form.
